Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. 11. (Canceled)
- 12. (Currently Amended) A driving method for a Thin Film Transistor array, capable of saving power, comprising:

dividing a Thin Film Transistor array frame into a first zone and a second zone, the first zone grouped into a graphic region and the second zone grouped into a non-graphic region; and

driving the first and second zones respectively with line inversion and frame inversion.

13. (Currently Amended) The method as claimed in Claim 12, further comprising:

implementing an Application Specific Integrated Circuit chip to provide the line inversion and the frame inversion ; and choosing the first mode or the second mode.

14. - 15. (Canceled)

- 16. (Currently Amended) A LCD display, comprising:
- an Application Specific Integrated Circuit chip determining

 a line inversion and a frame inversion the first and second

 driving types; and
 - a Thin Film Transistor array, comprising:
 - a first zone driven with the line inversion and grouped into a graphic region; and
 - a second zone driven with the frame inversion and grouped into a non-graphic region.
- 17. 18. (Canceled)
